DAN O'KEEFE,

jy4 Proprietor.

POTTING PLANTS FOR THE HOUSE.

Some Valuable Suggestions About the Choice of Flowers and Soil.

The potting of plants is a matter of general interest at this season to all housekeepers who desire to cultivate a window garden as a part of their domestic belongings. One grows to love flowers, and different plants come to have an almost distinct individuality of their own from association. There is scarcely anything that will win the heart away from care like the love of flowers. Next to the love of living things it raises the possessor above merely selfish aims and sordid cares

The potting of plants is an important matter It is useless to depend upon the plants that have been in blossom all summer for the blossoms of the window garden. Such plants as it is worth while to keep over during the winter must be given a season of rest before they can be expected to bloom again, and for that reason they should be put in the cellar, watered sparsely and left to recuperate till another summer. If the plants have not been potted in August and sunk in earth till the frost comes, this may be done now.

The soil in which newly potted plants are put should be neither too moist nor too dry, but just moist enough to bind well. If the plants have been in pots and the soil around them has become sour or there is any disease of the roots which makes it desirable to put all new soil around them, shake off the old earth very carefully, unwinding it so as not to break any of the delicate fibers of the roots. The proper soil for potting flowers is one part black earth, such as may be found in dark, damp woods, two parts sand, two parts well rotted barnyard manure, one part garden earth and two parts rotted leaf mold.

If it is convenient, however, it is better to purchase a bushel of potting earth already prepared from the greenhouse. It will cost about fifty cents a bushel. Greenhouses keep a compost heap and are able to prepare their earth to order with little trouble. It is folly to expect flowers to bloom successfully in the house when planted merely in the ordinary garden soil. The result is the painful spectacle of a few sickly stalks, from which half the leaves have fallen and which is too often the only exhibit the window garden makes. Unless the house in which the window garden is placed is wholesomely heated, at a temperature not exceeding 70 degs., no plants or flowers therein will flourish or bloom.

The presence of noxious coal gas shows at once in the growth of the window garden. Some plants, it is true, flourish even in the poisonous atmosphere of coal gas; but no plants will bloom successfully and few will give any growth at all. It pays to keep the gaslight out of the room where the window garden is, as more or less gas seems to escape from almost all burners. At all events, plants flourish very much better in a room lighted by a lamp than in one supplied with gaslight.

In potting a plant, see that the crown of the plant, which is just above the roots, is well above the soil and that the roots are packed compactly in the pot. A little "drainage," formed of pieces of broken pots, should always be placed in the bottom to insure the flowing off of surplus water, instead of its lying around the roots and turning the soil sour. After plants are potted they should be sunk in the earth and left out as late as possible in order to inure them to the changes of winter.

Where there is danger of frost at night it is better to bring the flowers in till morning. Very delicate flowers must be brought in the house for the winter much earlier than the hardy specimens. Individual treatment of the different species and circumstances must govern largely in the general treatment of the window garden.—New York Tribune.

Olive Shreiner at Cape Town.

Miss Olive Schreiner, the South African novelist, is at present residing at Cape Town, where she mingles very freely in society, and is frequently to be met at Government house. Miss Schreiner is quite a young lady, rather below the medium in height, with girlish form, dark lustrous eyes and a profusion of brown hair. Unlike most writers, she is brilliant in conversation and will discuss without reserve the leading topics of the time. She is greatly interested in public matters, and is often present at the debates in the Cape parliament.

Although "The Story of an African Farm"—the book which made her reputation—was published so far back as June, 1883, Miss Schreiner, with the exception of a few articles in the magazines, has not since appeared in print. She has, however, not been idle in the meanwhile, but has been assiduously writing, and intends shortly to come to Europe for the purpose of publishing the more matured products of her gifted and richly stored mind.

Miss Shreiner lives in pleasant rooms in Cape Town, close to the houses of parliament, overlooking the private grounds of the governor and the botanic gardens and commanding a magnificent view of Table mountain. She often seeks for a closer communion with nature by retiring to the solitude of Matchesfontain, a little village in the Karoo desert, 300 miles up country. Miss Schreiner is a member of a highly intellectual family. One of her brothers is a barrister in leading practice at Cape Town, another is a distinguished traveler and scientist, while her sister has attained great influence by lectures.—London Star.

Children Cry for Pitcher's Castoria.

"German Syrup"

Aathma. "I have been a great sufferer from Asthma and severe Colds every Winter, and last Fall my friends as well as myself thought because of my feeble condition, and great distress from constant coughing, and inability to raise any of the accumulated matter from my lungs, that my time was close at hand. When nearly worn out for want of sleep and rest, a friend recommended me to try thy valuable medicine, Boschee's German Syrup. I am confident it saved my life. Almost the first dose gave me great relief and a gentle refreshing sleep, such as I had not had for weeks. My cough began immediately to loosen and pass away, and I found myself rapidly gaining in health and weight. I am pleased to inform thee—unsolicited—that I am in excellent health and do certainly attribute it to thy Boschee's German Syrup. C. B. STICKNEY, Picton, Ontario."

Gentle, Refreshing Sleep.

SPECIE EXPORTS AND IMPORTS.

The exports of specie from New York City last weak amounted to $813,888, of which $775,466 was silver and $38,422 gold. The imports for the same period amounted to $3,077,839, of which $3,071,959 was gold and only $5,880 silver.

How effectually these statistics dispose of the assertion of the gold bugs and knock-kneed silver men, who are willing to accept the Harrison-Sherman idea that the country would be flooded with foreign silver in the event of the Mints being opened to silver as well as gold. Though silver is as cheap now as hostile legislation can make it, over three-quarters of a million of silver coins were exported from New York City last week, while the imports of gold during the week amounted to $3,071,959. The silver exported went to Europe and the gold imported came from Europe. If Europe has a surplus of silver, as the gold men assert, why is it importing silver and exporting gold, when silver is as cheap as it has been for several years? The fact is, according to all the statistics published, there is not silver enough in Europe to supply the people with the coins necessary for business purposes, and there is not the remotest danger of this country being flooded with silver from the other side of the Atlantic, if the infamous demonetization Act of 1873 should be repealed.

Politicians in Nevada who prefer party success, with a hope of getting office, to the prosperity of the State and the repopulation of its deserted mining camps, are trying to deceive the masses by echoing the cry of the gold men, that free coinage would flood the country with foreign silver; but facts, such as are given in the brief statement that $775,466 in silver coin and only $38,422 in gold was exported from New York last week, refute their assertions and disprove their arguments.

Let the people of Nevada, the men who are not seeking office and desire to see the State populated and prosperous, regardless of party success, make free coinage the issue in choosing the Presidential Electors, Senator and Congressman, by electing men to these positions who cannot be driven by the party lash, nor "persuaded" by Federal patronage, to vote for man or for measure that is against the remonetization of silver.

VIRULENT PARTISANISM.

The Carson Tribune is opposing the re-election of Senator Stewart to the United States Senate. One of the grounds of its opposition is that the Senator is not a Republican because he voted to confirm the nomination of Justice Lamar to the Supreme Bench, and against his party and colleagues on the Federal elections or Force bill.

The Tribune's partisanism is so virulent that it affects its reason. It ought to remember that Senator Jones announced before his election that he was opposed to the Force bill, which in plain words was intended to perpetuate the Administration of Mr. Harrison at the cost of liberty, and that even the boss-governed body, misnamed the Legislature, ultra Republican as it was, for once expressed the sentiments of the people, by endorsing the action of Senators Jones and Stewart, in opposing the attempt of Czar Reid, Bulwark Lodge and Harrison the Little to change our form of Government from republican to despotic.

The people of Nevada have given Senator Jones credit for his advocacy of the silver cause in the past, and are giving Senator Stewart credit for what he is now doing for the metal debased by trickery, but every person, whether Democrat or Republican, worthy of the proud title American citizen, however much he may desire the remonetization of silver, have a higher regard for our Senators for their gallant and successful fight against the Force bill than for all they ever did or ever can do to secure the remonetization of silver.

If Republicans upon any pretext defeat the re-election of Senator Stewart the gold men throughout the country will say, and with much more truth than they use in their arguments against free coinage, that he does not represent the sentiments of the people of the State in his advocacy of silver, and that the miners, merchants and farmers of Nevada do not want free coinage.

The Australian or Secret ballot law is in full force in Ohio and the "sack" men are endeavoring to devise some way to circumvent it. They dare not trust those who agree to sell their votes if they go to the polls so they propose to pay them to stay at home on election day. Should this method of using money prove successful in Ohio it may be adopted in Nevada and nullify the benefits which the people might derive from the secret ballot. In Ohio the citizen who does not vote at the ensuing election will be suspected of having kept away from the polls for a consideration.

THE SAN FRANCISCO SMUGGLERS.

It appears that the Treasury Department cannot avoid taking action on the San Francisco smuggling cases. Secretary Foster is in Ohio telling the people from the stump how he has conducted the duties of his office, and trying to account in a plausible manner for the disappearance of the surplus from the Treasury, and an assistant is attending to the Department in his absence. The assistant informs Collector Phelps of the San Francisco Custom House that it seems evident that there is nothing to prevent a prosecution of the suits against the smugglers, Neustater and Reis. The goods which, though invoiced as cottons, proved to be high-priced woolens, are forfeited to the United States, and simply await formal condemnation and sale. The smugglers have become subject to trial for felony and to punishment if convicted.

The Acting Secretary is explicit in his instructions regarding the disposition of the smugglers and the smuggled goods, but has nothing to say about the Custom House officials who conspired to admit the goods upon payment of about one-tenth the duty to which they are subject by law. It can scarcely be considered just, even from a partisan stand-point, to accept the resignation of a salaried and sworn Government official, who conspires with smugglers to defraud the revenue, and let him go unpunished and send those with whom he conspired to the penitentiary.

BY TELEGRAPH!

News of Importance From Home and Abroad.

America Wants Reparation.

Special to the Journal.

SANTIAGO, Chili, October 26.—The United States Government to-day through Minister Egan, formally demanded reparation from the Government of Chili for the attack recently made in Valparaiso upon a number of seamen of the United States cruiser Baltimore. Egan presented the Junta with a detailed statement of the results of the investigation made by Captain Schley of the Baltimore and himself. Egan, in presenting the Chilian Junta with the statement expressed in distinct terms the feeling of great indignation which the State Department at Washington feels at the brutal conduct of the police of Valparaiso, in joining with the mob in the latter's attack upon the Baltimore's seamen, and in drawing bayonets and using them against unarmed Americans. Egan also particularly called attention to the additional brutality of the police of Valparaiso in using horses to drag the Americans to prison.

After making a brief but pointed summary of the facts to which he had been instructed to call attention, Egan informed the representatives of Junta that in the name of the United States he demanded reparation for the insults and injuries complained of.

Now the question which arises is what will be the action of the Chilian Government? As it appears now there seems no doubt but that the Junta will soon make the reparation demanded.

Direct and Hal Pointer.

Special to the Journal.

COLUMBIA, Tenn., October 26.—The match race between Direct and Hal Pointer attracted an immense crowd to Columbia to-day. The heats were three in number, and in each the result was a victory for Direct. Geers urged Pointer to his utmost, and once to such an extent that he went under the wire off his feet. The heats were almost identical. The two would get off together, Direct almost immediately taking the lead, and they would travel together at a terrific pace to the stretch. There Geers braced himself for a finish, and on the stretch would keep near the leader, even coming to Direct's throat latch. Then Starr would let the whip fall, and with a mighty burst the California horse would go under the wire a winner of the heat. The time, 2:09, 2:08, 2:08¼, was phenomenal for a new track, though it is kite-shaped and down hill all the way.

A Suicide.

Special to the Journal.

CHICO, Cal., October 26.—A telephone message from St. John gives information of the suicide of W. H. Weaver on the Jones place this morning. Weaver is the man who had a struggle with Hong Dy, a Chinese cook, and who was shot and wounded by him at the time Dy murdered Mrs. Ballou, the wife of his employer, at Calusa in June, 1887, for which crime he was lynched. Weaver has been complaining some time and this morning took a pistol and small mirror, holding the latter in his hand so he could see how to guide the pistol properly, and sent a ball crashing through his brain. No reason is assigned for the deed.

Prize Fight.

Special to the Journal.

SAN FRANCISCO, October 26.—In the finish fight between Harris Martin, the Black Pearl, of Minneapolis and Paddy Gorman, the Australian heavyweight, for a $1,000 purse at the Pacific Club to-night, Gorman was counted out in the fourth round.

A Swindler Convicted.

Special to the Journal.

SAN FRANCISCO, October 26.—In November 1890, the postal authorities procured the arrest in San Francisco of Martin C. Theilmann, Secretary and Treasurer of the Eagle Insurance Society, on the charge of having used the mails in a scheme to defraud. Theilmann was recently tried and convicted in the United States District Court in this city and was to-day sentenced to 18 months' imprisonment and to pay a fine of $100. His victims number several thousand and for the most part are residents of Eastern States, and he caused the books of the society to show receipts in the past two years of over $43,000, which was shown was all appropriated by Theilmann, he being the sole beneficiary since his conviction. The directors have discontinued the operations of the society although remittances are still being received and held back by the postal authorities.

The Baltimore Ordered to San Francisco

Special to the Journal.

WASHINGTON, October 26.—A short cablegram received at the Navy Department to-day from Commodore Schley at Valparaiso announced the death of Wm. Tunbull, one of the Baltimore's coal heavers, wounded in the recent assault. Orders have been sent by Secretary Tracy to Admiral Brown at Callao, Peru, to sail immediately for San Francisco. The reason assigned is the foul condition of the vessel's bottom, which cannot be cleaned in Chili or Peru.

Dynamite Explosion.

Special to the Journal.

CUMBERLAND, Pa., October 26.—At the quarries of the Cumberland cement mill this evening, when four men were carrying a lot of dynamite up the ledge into one of the tunnels, one of them dropped a lump into the box. An explosion followed and Jacob Hammersmith, A. J. Taylor, W. Keiffer and Charles Thompson probably fatally injured. Many others received painful bruises.

Fire at Watsonville.

Special to the Journal.

WATSONVILLE, Cal., October 26.—The Watsonville bakery and adjoining building, both owned by Samuel Conlin, were destroyed by fire this morning. No insurance on the buildings. The contents of the bakery was insured for $500.

Tug of War.

Special to the Journal.

SAN FRANCISCO, October 26.—In the international tug of war to-night the Danes beat the Canadians and the Germans beat the English.

H. P. KRAUS, P. M.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address,

F. J. CHENEY & Co., Toledo, O.

☞Sold by druggists, 75c.

Admission Day.

The committees are actively engaged in the work for the celebration. An Indian campoodie, a typical old line stage coach and a vigilance committee will be among the original features of the parade.

Th exercises at the Opera House will consist of remarks by the President of the Day, F. H. Norcross; oration by C. D. Van Duzer; singing by Miss Booton; poem by Miss Little; singing by Miss Finlayson; recitation by Mrs. Shearer, and music by the band. The celebration promises to be a success.

Attention, Odd Fellows.

A special car will leave here to-morrow (Wednesday) attached to the regular passenger train for Wadsworth. All members of the I. O. O. F. are invited to join the delegations from Truckee, Reno, Virginia and Carson Lodges and attend at the institution of Wadsworth Lodge, U. D., and be at the depot in time to take the train which is due here at 9:05 A. M.

By order of the committee.

A Card.

At a meeting of the Ladie's Aid Society of the M. E. Church a vote of thanks was unanimously tendered the ladies and gentlemen who so kindly assisted in making the concert given by the Society at the Opera House last Friday evening, a success.

BREVITIES.

C. N. Wallace tells the Silver State that he found $472 50 in coin under an old house that was being torn down at Fort McDermit.

There are seventeen children attending the Indian school at Walker Lake reservation, and two teachers are employed to teach them.

The ball to be given by Washington Lodge No. 25, A. O. U. W., October 30th promises to be a grand affair. Music by Fredrick's Orchestra. eod

The Board of County Commissioners will meet to-day to determine whether or not to reduce the rate of taxation for county and municipal purposes.

The Silver State says Brakeman Prouty had the fore finger of his left hand cut off yesterday morning while coupling cars at Stone House.

Of the 50,000 acres of land subject to irrigation by the Honey Lake Valley Land & Water Company's reservoir, 35,000 acres have already been taken.

Judge Harris and others of Lassen county are working about 20 men in their Cottonwood mines in this county about 30 miles north of Pyramid lake.

Ed Ferris and others intend building a dam and reservoir at the junction of Dry and Long Valleys for the purpose of irrigating Lands in Long Valley.

Nature is just taking on a dress of golden hue. The frosts are becoming heavier as the Fall goes on and ere we know it the guant and spectral arms of the leafless trees will be covered with snow.

Prices in accordance with the times, hair cutting and shampooing 25 cents; baths 50 cents or three tickets for $1, porcelain tubs, at C. Coleman's, on Virginia street, next to Faedrick's. The best work guaranteed.

Southern and Western Australia have become members of the Universal Postal Union and postage henceforth to those countries will be five cents for each half ounce or fraction of an ounce instead of twelve cents, as heretofore.

Of the excursion party from San Francisco who went out to examine the reservoir of the Honey Lake Valley Land & Water Company, only seven of them returned Sunday night. The others remained over to select land for themselves and friends and returned to Reno last night.

The jury impanneled to inquire into the mental condition of R. W. Lewis, indicted for killing A. H. Ruse in Winnemucca one year ago, found that he is insane. He now goes to the Asylum, and if he becomes sane will be tried for murder, as the present jury did not determine whether or not he was sane at the time of the homicide.

Sunday evening C. B. Luse of the Marble Works and a young lady were out riding. The horse ran away and the occupants of the buggy were thrown out of the vehicle, fortunately without sustaining any injury, and had to make their way home the best they could. The buggy was smashed into kindling wood and the horse, stiff and sore, made his appearance at Hymers' stable.

There is great activity on the Truckee from Floriston down. Large forces of men can be seen at work on ice ponds and new ice houses. A large force of men are busy at the Inyo Marble Works as well as at the numerous saw mills along the river. There are extensive improvements going on at Floriston and before many years there will be seen several flourishing villages along the banks of the Truckee.

A. B. McCoy formerly telegraph operator and a resident of Reno who left here about fourteen years ago passed west yesterday afternoon on his way to San Francisco where he intends to reside in the future. Mac has resided in New York since he left Reno. He was met at the train by a large number of his old time friends and acquaintances who kept him busy shaking hands while the train remained. His family accompanied him.

Henry Cutting of the Class of '91, Liberal Arts, departed for Candelaria yesterday morning at which place he will assume charge of the public school. Henry has been one of Reno's active and public spirited young men and will be greatly missed. His many friends wish him much success in his new field of labor and doubt not but that he will acquit himself with that credit which will add to our University's fair name for successful young men and women.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhœa, regulates the Stomach, and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives Tone and Energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup." feb21ltf

Free Water.

Parties in Reno having good wells or a place for one are throwing away money in paying water rates, when by a small investment plenty of pure water is at their command free of cost. One good well will supply water for several families, who by joining in the expense of erecting a windmill, tank, etc., can not only effect a saving in expenses, but be independent of a monopolizing water service. A visit to the Water Company's reservoir and ditch at times will convince the most skeptical that well water is the doctor's enemy, while surface water is the direct agent in bringbusiness to his office.

Constant pumping insures pure water from all good wells, hence the quality of well water cannot be judged properly from only occasional pumpings. Many unused wells would furnish plenty of pure, clear water if properly pumped.

Can you afford a pumping plant of your own? We will answer for you, Yes.

We are prepared to take contracts this Winter to erect any sized wind-mill plant required, with proper tank and service connection, furnishing them on a monthly instellment plan, warranting all work and taking proper care of all mills so erected.

Plans and specifications free upon application. anti-freezing pumps and protected pipes insure equally as good Winter service as in Summer. For further particulars call on

oct6tf RENO MF'G. Co.

MARRIED.

NOYES—DOUGLAS—At Glendale, October 26, by Rev. John Barr, W. H. Noyes to Miss Minnie Douglas.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other.

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." MRS. ELLA A. GOFF, 61 Terrace Street, Boston.

Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

It is reported that Attorneys Clarke and Jones are of the opinion that the 15 per cent. horizontal raise is unconstitutional.

The North Truckee school, of which Miss Frances Frey is the principal, was closed last week on account of diphtheria.

The University has adopted a new set of rules, very stringent, in reference to the conduct of the students when off the University grounds.

Senator Williams of Carson who is now in San Francisco is making arrangements for an extensive creamery soon to be built in Mason Valley.

Mrs. Frank Peterson was buried yesterday. The services which took place in the Baptist Church, were largely attended and very impressive.

The Chautauqua Circle which was held at the residence of Mrs. L. D. Folsom, last Saturday evening was well attended and a most enjoyable evening was spent.

Among the party of excursionists who visited the Honey Lake reservoir, from Susanville were Mr. Dodge Editor of the Lassen Advocate, Superior Judge Mastin, T. B. Sanders and D. C. Hyers.

Dr. Helmer, a noted physician, asserts that a dose of per oxide of hydrogen, twenty drops, in water, every day, will do more toward curing consumption than anything else previously used for that purpose. He further states that sixty drops of the per oxide will sterilize a quart of milk and render it harmless to children.

The Galena Reduction and Mining Company has been incorporated at Battle Mountain for the purpose of mining and milling ores. The capital stock is $100,000, divided into shares of $10 each. The Directors are J. A. Blossom, President; John Judge and David Keith of Park City, Utah, H. C. Reno and G. S. Moore.

LAND AND WATER.

The Honey Lake Land and Water Company Getting Them Together—Second Excursion to the Scene of Operations.

The H. L. L. & W. Co., a corporation composed of San Francisco capitalists and residents of Honey Lake Valley, who desire to see the country developed and help others as well as themselves, are actively engaged in bringing land and water together. As the Government owns the land, and the title to it can be procured only by complying with the Homestead or Desert Land Acts, the company is taking intending settlers to the land so they can see by actual observation on the ground what can be accomplished by irrigation in the sagebrush-covered valleys east of the Sierra Nevada.

EXCURSION PARTIES.

By arrangements made with the C. P. R. R. Company and N.-C.-O Railway, excursion parties from San Francisco to the scene of the Land & Water Company's improvements are furnished transportation at reduced rates. One of these excursion parties arrived here in a palace car last Sunday morning and proceeded on the N.-C.-O. Railway to Taylor's Station, which is about sixty miles north of Reno. The party consisted of about thirty persons from various parts of California and other States, among whom the reporter noted the following intended settlers: A. Frederick, H. P. Wickersham, Duncan McNee, C. A. B. Brackett, S. S. Burge, W. P. Tremble, T. J. Parsons, B. Hess, W. H. Edwards, Will Earl, Chas. McDougal, J. Fargo, Fred Brandt, C. H. House, I. J. R. Cockroft and Joseph Cockroft of San Francisco; W. W. Greer, W. M. Sims, C. M. Coglan, R. H. Beamer of Sacramento; D. F. Regan of San Jose, M. J. Peach of Alvarado, G. L. Small of Fresno, B. Sheehan of San Mateo, J. B. Dundas of Dakota and W. B. Lake, Secretary of the company. The run on the N.-C.-O. from Reno to Taylors was made in two hours and a half. At the station the party were transferred to wagons and conveyed to the camp near the reservoir, where they were welcomed by a large delegation from Honey Lake and Long Valleys, and a bountiful repast, comprising the substantials and delicacies of the country, were served to the excursionists, whose appetites were sharpened by the ride in the bracing and invigorating air. The dining room was embellished with the products of the valley. Large melons and pumpkins, potatoes as fine as can be produced in the world, corn, wheat and barley, and apples as large as musk melons and of the finest flavor were displayed as evidences of what the sagebrush will produce when cultivated.

THE STORAGE RESERVOIR.

The storage reservoir is being constructed under the supervision of Frank M. Shideler, Vice President of the Company, in accordance with the plans and specifications of L. H. Taylor, engineer in charge of construction. It is situated on Long Valley Creek, which discharges into Honey Lake about six miles below. The dam will be at the base 200 feet long and at the top 950 feet long and 96 feet high. Its width at the bottom will be 500 feet and at the top 20 feet. The water surface of the reservoir will be 1,081 acres, with an average depth above the outlet gates of 30 feet, which on estimates based on the quantity of water required by actual experiments in San Bernardino and other places in California, will be capable of irrigating 50,000 acres of land. Forty men and twenty-five teams are now engaged in constructing the reservoir, all of whom have taken up land and are paying with their labor for water to irrigate it.

THE LAND.

The land which it is proposed to reclaim is owned by the Government and title can be procured under the Homestead Act by actual settlers or under the provisions of the Act of Congress of March 3d, 1875, known as "the Lassen County Desert Land Act." This land is covered with a thick growth of sagebrush, and is favorably situated for irrigation purposes, the valley sloping gradually to Honey Lake. The Sierra Nevada, which bounds the valley on the west, is covered with dense forests of pine and oak, which will afford cheap lumber and fuel to the settlers. The soil is rich, and as has been proved in Honey Lake Valley, produces in abundance and of the finest quality all the cereals, fruits and vegetables of the Temperate Zone. Several thousand acres of this land is now taken up by settlers, who will cultivate it and make a home for themselves and their families; others are claiming lands under the Lassen Desert Land Act, which gives them two years from date of application in which to reclaim and pay for them. The company agrees to furnish a perpetual right to water for irrigation purposes at $5 per acre. The land, when reclaimed, will be as valuable as the rich prairies of the Western States, as they will produce grain, fruits and vegetables that cannot be surpassed in any country.

WILL BENEFIT RENO.

As Reno is the terminus of the N.-C.-O., which runs north to and through the lands which will be brought under cultivation and is the entrepot for the Honey Lake Valley country, the success of this enterprise will be of great benefit to the town, as it will materially increase business, and it therefore deserves the good will and encouragement of our business men and citizens generally.

The Lyceum will, in connection with C. L. Logan's lecture on Columbus, give on next Saturday evening a side-spliting travesty on Columbus at the Court of Isabella, in which the best historonic talent in Reno will take part.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

WHAT IS SAID IN THE CHURCHES.

Let Each Christian Do His Part.

The services in the Congregational Church Sunday morning October 25, were conducted by the pastor, Rev. T. Magill. The lessons were from the 91st Psalm, and Matthew xii-i-xiv.

Subject of the sermon: "The Perseverence of the Saints." Text: Luke, xii-xxxii. "Fear Not Little Flock, for it is the Father's Good Pleasure to Give You the Kingdom."

These words spoken to the little band of Christ's dicipies, to allay their fears and encourage them to continue to follow Him, are just as applicable to Christians to-day as when they were uttered. The central thought was that God would care for them; that each individual was an object of His love, and he expects them to trust Him always unreservedly, with the full assurance that He would bring them to a heavenly home.

This assurance is the stay and shield of the Christian at all time, through evil and through good report. It enables him to bear poverty and suffering with a cheerful heart, knowing that God is with him, and will carry him through it all and give him the kingdom at last.

Closing hymn—"How Firm a Foundation." In the evening the sermon was from the text Jonh, ix-iv. the subject was "Work."

The importance of work, working earnestly to do good to others; following the example of Christ while on earth; going about doing good, was urged as the duty of each one of us.

Each one has a work to do, as important to himself as Christ's work was to the world. The brevity of life makes it imperative that we should improve the time by working to do the will of God, who has commanded us to do His work at all times, and the first work of everyone is to be reconciled to God. This takes away the fear of death, removes anxiety as to the future in this present life, and the invisible power stregthens us to go forward and work for his cause—"to save the other man,"—who is in peril; to raise the fallen, cheer the faint, and be ever ready to do God's will, as we have opportunity. If we have but one talent, improve that by earnest effort and not allow it to remain idle.

The speaker alluded to the question "how to reach the unchurched masses?" and summed up the answer by saying: "Let each Christian do his part and the problem will be solved."

Sunday evening W. H. Noyes, a Reno raised young man, and Miss Minnie Douglas, one of Washoe's fairest daughters, were married at the residence of the bride's parents, near Glendale, by Rev. Mr. Barr. The happy couple left for California on a bridal tour Sunday night. Yesterday George Humphreys, a friend of the young couple, visited the JOURNAL office and announced the event, and all drank to the health, happiness and prosperity of Mr. and Mrs. Noyes.

BUSINESS, LOCAL AND NEWS ITEMS.

The Palace Hotel, which is well and favorably known to every old Nevadan, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

Cakes Without Eggs.

Observing housekeepers quickly learn that Dr. Price's Cream Baking Powder is far superior to other brands in the fact that they never fail to make the finest pastry, and if they wish to be economical they can dispense entirely with eggs and can use a less quantity of butter for shortening purposes. The advantage is not alone in the saving effected but in avoiding the trouble and frequently the great difficulty of securing eggs that are fresh. This is often a serious trouble.

Cakes of various kinds from the informal Griddle Cakes to the stately Bride Cake can be made with Price's Cream Baking Powder, which insures light, sweet and handsome cakes; or when used for Griddle Cakes to be eaten hot enables their production in the shortest space of time, always tender and delicious.

Dr. Price's is the only Baking Powder that contains the white of eggs. None so pure! None so wholesome!

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

MARRIAGE IN ASSYRIA.

Rather More a Matter of Barter There Than in the Land of the Free.

Men live on six cents a day in Assyria. Assyrian women are bought and sold, are made to work with oxen at the plow, and have as little liberty as in the days of Cadmus. Men who pay six dollars a day to live and ladies who ride to shops in victorias thought over these things as they left the Lincoln Park church Sunday night. Amen Rasi, born on Mount Lebanon, told these things in broken English.

Amen Rasi is a tall, handsome Assyrian, with a skin as rich as the cinnamon silks made at the foot of the mountain on which he was born. He looked into the curious, bright eyes of girls and told them that, had they been born Assyrians in Assyria they could not go upon the streets unless their faces were concealed; that they could neither receive nor make a call among women without their husbands' consent, and that if at any time, even by accident, they were seen by any man or in any way recognized no one would marry them.

He said that once two couples—a tall man and a short woman, and a short man and a tall woman—stood before a priest to be wed. The priest placed the tall man and tall woman and the short man and short woman together, and none of the four knew whether it was right or not, neither of them knowing the other. But the parents hastily objected, and placed the tall man by the short woman and the short man by the tall woman, as that was the way of the contracts.

Then Mr. Rasi showed how these contracts were made. He left the pulpit, and presently a man wrapped up in rich Assyrian raiment went up and sat upon the floor. Mr. Rasi came back and squatted beside him.

"I would very much like," he said, "for a girl who is yours to be wife to my son Isaac."

"I would be honored," returned the man, with a very unmistakable American accent.

"How many have you?"

"Three."

"How much years have they?"

"One is fifteen, one twenty and one twenty-five."

"Don't talk to me about the twenty-five nor the twenty; they are never fit to marry. How much do you charge for the little one?"

"Five camels, four horses, three sheep and fifty dollars."

"Bah! I can buy 100 women for so much."

"But no little one."

"Oh, I think so."

"Well, you can't have mine for a cent less."

"I pay."

But even then Isaac did not get the little one, because a few minutes later Mr. Rasi returned as another man, and by doubling the price secured the girl for his son Jacob.

Then Amen Rasi looked at the young men, whose patent leathers cost them seven dollars, and told them that people in Assyria paid fifty cents for a suit of clothes. The common people, he said, paid three cents for twenty-five pounds of cabbage and four cents for five pounds of turnips. Fifty loaves of bread were turned out at a baking, and men sometimes ate four and five loaves at a meal. He waited for a moment, and then, turning to a black boy behind him, said, "They are so big," and he drew a circle that would inclose a Thanksgiving platter.—Chicago Herald.

It Looked Great.

Mr. G. S. Clinton placed "Coventry, England," after his name on the Auditorium register the other morning. A reporter asked him what he thought of this country in general.

"Oh, I like it pretty well," he replied.

"Have you traveled very extensively in the United States?"

"All over it."

"Have you been in Chicago before?"

"Often."

"Do you intend to remain in this country long?"

"For the rest of my life."

"Then you like it so well that you intend to settle here?"

"I think I will. I've been in the United States for twenty-seven years. It suits me first rate. I register from Coventry because it looks better than Hell Creek, where I live, and so that I can remember to write letters to my people in England. Haven't seen Coventry since I was a small boy and don't want to, but the name looks simply great on a hotel book. Don't you think so?"—Chicago Inter-Ocean.

Aluminium-Gold.

A most remarkable alloy aluminium is now on exhibition of gold and [illegible] under the examination of scientists. It is of a beautiful, rich purple color. This royal metal will make a handsome addition to those now used for purposes of adornment. From all accounts it seems amenable to the methods of jewelers in making their gold ornaments.—New York Recorder.
